

We partner with government, academia and private industry to advance military medicine.

When you work with HJF on your clinical trial, you get more than trial management – you get a partner committed to advancing medical technologies that benefit your patients and our nation’s warfighters.

Funding & Budget Planning

Trial Design & Execution

Regulatory Expertise

Commercialization

Our talented team of more than 2,800 administrators, scientists, clinicians, and research support personnel are dedicated to seeing your research succeed.

Contact us to hear why HJF has been selected in 2023 as the chosen partner to administer over 1,200 clinical studies across 18 countries.

Infectious Diseases	580+
