

Session	First Name	Last Name	Poster Title
1	Antuione	Perry	Feasibility of Constructing Field Improvised Exoskeletons for Prolonged Care
1	Diane	Bolton	Defining the Window of Opportunity for HIV Peri-exposure Immunoprophylaxis with Bispecific Monoclonal Antibody
		De Luca-	
1	Javier	Johnson	A Phase 1 Study Assessing the Safety and Tolerability of an Intramuscularly-Delivered, Multi-Target, Anti-Influenza
1	Hannah	Duling	Demographic Representation in the Defense and Veterans Center for Integrative Pain Managements Pain Registry
1	Tracy	Rupp	Massage Therapy Integration in a Primary Care Medical Home
			Development of a Polymicrobial Biofilm Model for Wound Infections of Acinetobacter baumannii, Klebsiella pneumoniae, and Staphylococcus aureus
1	Corley	Mills	
1	Cassie	Rowe	Neutrophil Gelatinase-Associated Lipocalin (NGAL) as an Early Predictive Biomarker of Multi-Organ Dysfunction
		Macedo	
1	Camila	Cincotta	A Multistep Diagnostic Algorithm for Enhanced Mpox Immunoassay Sensitivity and Specificity
1	Corey	Balinsky	Development of mRNA Vaccine Platforms Targeting Dengue Virus Non-structural Proteins
1	Kayla	Septer	Antigenic Characterization of Currently Circulating Seasonal Influenza Strains Using Antigenic Cartography
1	Lily	Metzger	Boosting and Durability of HIV-1 Binding and Neutralization Antibodies by IHV01 and A244 gp120 Proteins in
1	Kristo	Nuutila	Multifunctional Agarose Hydrogel for Mitigation of Burn Wound Progression and Infection in Austere Environments
1	Andrew	Clark	Provisional Treatment of Volumetric Muscle Loss with IGF1-Releasing Muscle Void Fillers
1	Tahaniyat	Lalani	Deployment-related Diarrhea Management: Developing Solutions for Prevention, Diagnosis, and Treatment

Session	First Name	Last Name	Poster Title
2	Felipe	Lisboa	The Clock Is Ticking: Evaluating How Early Sepsis Can Be Accurately Predicted Using Clinical and Biomarker Models
2	Kylie	Rapso	Optimizing Tissue Preparation and Handling for Enhanced Proteomic Profiling
2	Michael	Rouse	Analytical Assessment of Reagent Lot Variations for WoundX: Methods for Standardization and Quality Assurance
			Is cellular senescence a hallmark of Long COVID? A high-dimensional transcriptomic data analysis across comparative post-acute sequelae phenotypes
2	Nusrat	Epsi	
2	Rebecca	Schulz	Sex Differences in Chronic Pain, Mental Health, and Opioid Prescriptions among Active Duty Service Members in the
2	Sarah	Darmon	Using Complex Medical Data to Examine Patient Characteristics in Association with Postoperative Outcomes of
2	Xijun	Zhang	Genomic Variant Classification Analytics for APOLLO Precision Medicine
			Graduation Rates Increase along with Self-Reported Musculoskeletal Injuries with an Embedded an Athletic Trainer during United States
2	Alexandria	Gregory	Marine Corps (USMC) Infantry Training
2	Helene	Paris	Needs of Military Service Members with Myoelectric Multi-Articulated Upper Limb Prostheses: A Thematic Analysis
2	Justin	Asbee	Task-Related Sensations for Prosthesis Users During Everyday Activities: Characterizing Percepts Elicited by an
2	Cassie	Rowe	Behavioral Deficits and Neuroinflammatory Responses to Subacute Repetitive-Intermittent Blast Exposure
2	Michael	Cranston	Alterations in Axonal Integrity Following Repeated Blast Exposure in Postmortem Brain Tissue from Military Service
			Active Duty Service Members Reasons for Seeking or Avoiding Medical Care for Musculoskeletal Injury and Pain: Preliminary Data from a
2	Brittany	Hollis	Qualitative Interview Study
2	Kalyn	Jannace	Examining the Associations between Rehabilitation Utilization and Incident Chronic Pain following a
2	Stanley	Zimmerman	Identifying Pre- and Post-COVID-19 Pandemic Telerehabilitation Utilization Differences in the 12
2	Dominic	Nathan	Predicting Return to Play Post Mild Traumatic Brain Injury Using Machine Learning Tools
2	Jordan	McAdam	Blast Traumatic Brain Injury and Long-Term DNA Methylation in Select Immune Gene Promoter Regions and
2	Amandari	Kanagaratnam	Recent Trends in Tubal Ligation Incidence among Active Duty Service Women
2	Rachel	Gabor	Comparison of Breast Cancer Risk Factors by Age, Race and Ethnicity among Active Duty Service Women between

Session	First Name	Last Name	Poster Title
3	Jeffrey	Page	Leveraging Feature Importance Methods to Characterize Explosive Ordnance Disposal Veterans Health Profiles
3	Josh	Kazman	The Association Between Character Strengths and Discharge Status in the U.S. Army
3	Renhua	Li	The Dynamic Interplay Between Rib Fractures and Immune Responses Significantly Impacts Consequent Clinical
3	Tammie	Jones	Characterizing Limb Loss and Absence in Military Health System Beneficiaries: Demographics, Causes, and Trends
3	Christin	Ogle	Age-related Changes in the Risk of Child Maltreatment Types
3	Maegan	Willing	Physiological and Ecological Momentary Assessment of Daytime Psychological State in Participants Undergoing
3	Hua-Wei	Chen	Development of a Multiplex Luminex Assay for the Detection of Three Respiratory Viruses in Clinical Samples
3	Vivitha	Mani	Using the Delphi Method to Produce a NATO Pharmaceutical Stockpile in Support of the Center of Excellence in
3	Jacqueline	Forster	Preventing the Misuse of Harmful Dietary Supplement Ingredients: An Evidence-based Comprehensive Ingredient
3	Madison	Walker	A Seat at the Table: Community Based Participatory Research for a More Resilient Force
3	Elizabeth	Parins	Preventing Military Suicide Deaths Through Dissemination of Evidence-Based Strategies and Treatments: A Review of
3	Erin	Maresh	The DARPA STRENGTHEN Program: Transdiagnostic Interventions Targeting the Brain and Behavior to Enhance
3	Robyn	Englert	Assessment of Command Climate and Mental and Behavioral Health across Different U.S. Navy Operational
3	Sarah	Maggio	SAFEGUARD Life Force: Evaluating a Group-Based, Skills Training for Increasing Mental Toughness and Preventing
3	Gabriel	Pineda	Serological Evidence of Coccidioidomycosis Seroconversion in Military Personnel Stationed at Yuma, Arizona, Quantifying Exposures: How the Veteran Military Occupational and Environmental Assessment Tool (VMOAT) Synthesizes Classification
3	Lily	Reck	Exposure Dose (Class-ED)
3	Sreeja	Puthumana	Lag-Effect of Climate and Landscape on West Nile Virus Outbreaks in New York: A Case Study
3	Susan	Chadid	Primary Military Occupations and Risk for Papillary Thyroid Cancer among Officers and Enlisted Personnel
3	Maegan	Willing	Sleep Health isn't Optional, it's Operational: A Biopsychosocial Toolkit for Improving Sleep in the Military
3	Elizabeth	Pearce	The Impact of Mental Strength Resilience Training (MSRT) on Stress, Mindfulness, Resilience, and Performance in the Far-Forward Operational Environment
