Describe your personal time commitment to this business:

Application Questions

Please describe your technology's potential to have dual-use application in both military and civilian markets. In your description, please detail the problem your technology solves.

How do you envision HJF Innovation Labs assisting you in achieving your business goals (e.g., provide small wet-lab space, participate in incubator programs)?

HJF Innovation Labs @ MontgomeryCountyMD Pre-Application

What is the legal structure of your business (e.g., LLC, corporation, sole proprietorship, partnership) and place of incorporation?

What is the current innovation status of your product/service (e.g., preclinical, clinical, validated software), and what are the potential applications/relevance for the military and civilian sectors?

Describe your planned development pathway and key milestones, including estimated timelines for major technical, regulatory, and commercialization steps.

Please briefly describe your intellectual property (IP) protection strategy, including any filings, disclosures, or plans for securing IP rights.

What funding source(s) have supported or are currently supporting your innovation and/or company development to date?

HJF Innovation Labs @ MontgomeryCountyMD Pre-Application

How much capital do you plan to raise in the next 1-3 years. How will you use that raise to meet certain business milestones?
