I. **INTRODUCTION/BACKGROUND:**

The work to be completed under this request for proposals is to support non-clinical arts engagement programs that support wellbeing and disaster recovery for Alaskan Native, military-and veteran-connected, and other individuals in Alaska who have been impacted by Typhoon Halong, and to enhance preparedness, response and recovery efforts for local artists and organizations who seek to support these communities. This contract is issued through the Creative Forces®: NEA Military Healing Arts Network (the Network, or “Creative Forces”) initiative.

Creative Forces®: NEA Military Healing Arts Network began in 2012 as an initiative of the National Endowment for the Arts in partnership with the U.S. Departments of Defense and Veterans Affairs and is managed in partnership with the Henry M. Jackson Foundation for the Advancement of Military Medicine and Mid-America Arts Alliance. Creative Forces seeks to improve the health, well-being, and quality of life for military service members and veterans exposed to trauma, as well as their families and caregivers, by increasing knowledge of and access to clinical creative arts therapies and community arts engagement. Since 2017, Creative Forces has invested in community arts engagement projects to advance understanding of the benefits and impacts for military-connected populations who have been exposed to trauma.

The overall goal of the Creative Forces Community Engagement Disaster Readiness, Response, and Recovery Pilot Project is to support health and well-being for military-and veteran-connected populations and other impacted members of these communities through the arts, and improve capacity for preparedness, response and recovery efforts for artists and organizations who seek to support these communities.

- Leverage resilience: Participants bolster and refresh their innate abilities to address and “snap back” from unique, challenging circumstances.

- Increased awareness: Project activities serve to increase understanding across local Alaskan Native and military and civilian networks of the role the arts and cultural traditions and practices play in promoting individual healing and community resilience in areas impacted by natural disasters and national emergencies.

Note: While these activities can be informed by Creative Arts Therapies or other medical knowledge, practice, or theory, activities supported via this contract cannot include direct involvement with medical research, clinical therapy, or treatment delivery, or involve Protected Health Information, including any associated with the Health Insurance Portability and Accountability Act (HIPAA). - c. References to Days. Any reference in this Contract to a “day” or number of “days” (without the explicit qualification “business”) is a reference to a calendar day or number of calendar days.
- d. Examples. If, in any provision of this Contract any example is given (through the use of the words “such as,” “for example,” “e.g.,” or otherwise) of the meaning, intent, or operation of any provision of this Contract, such example is intended to be illustrative only and not exclusive.
- e. Currency. Except as otherwise expressly provided herein, all prices or other monetary amounts stated in this Contract are, and all monetary amounts stated in any report to be delivered pursuant hereto shall be, stated in United States Dollars.
- f. Participation in Drafting. Both Parties and their respective legal counsel have participated, or had the opportunity to participate, in the drafting of this Contract, and this Contract will be construed simply and according to its fair meaning and not strictly for or against either Party.

E.2. Entire Agreement. This Contract, including any and all Attachments, Addenda, statements of work, specifications, drawings, or other documents referenced in this Contract, which are incorporated by this reference, constitute the entire agreement between the Parties. All prior negotiations, proposals, and writings pertaining to the Contract or the subject matter thereof are superseded hereby. Any reference to Contractor’s quotation, bid, or proposal does not imply acceptance of any term, condition, or instruction contained in such document. Any preprinted terms and conditions stated in any invoice, acknowledgment, or other communication issued by Contractor in connection with the Contract shall not be applicable to the Contract and shall not be considered to be Contractor’s exceptions to the provisions of the Contract. Trade custom or trade usage is superseded by the Contract and shall not be applicable in the interpretation of the Contract. Contractor shall notify HJF immediately of any ambiguities, express conflicts, or discrepancies in the statement of work, specifications, drawings, or other documents that are a part of the Contract, and shall comply with the reasonable determination of HJF in such matter. Headings and numbering in the Contract are for convenience of reference only.

E.3. Contract Modification. No agreement or understanding modifying or waiving any terms or conditions of this Contract shall be binding upon HJF, nor shall extra compensation be paid by HJF, unless the agreement or understanding is made in writing and signed by the HJF Authorized Official.

E.4. U.S. Government Personnel. HJF and U.S. Government personnel are engaged in active collaboration for the medical research program funded by the Prime Award. For the avoidance of doubt, it is understood and agreed by the Contractor that U.S. Government personnel are not employees, agents, or representatives of HJF and shall have no authority to legally bind HJF for any purpose.

E.5. Changes. HJF shall have the right to make changes in the instructions, specifications, and drawings for goods or services covered by the Contract. If Contractor believes that any such change increases or decreases the price or time of delivery for such goods or services, Contractor shall so notify HJF (in writing, with adequate supporting documentation) within fifteen (15) days after receipt of written direction from HJF to make such change. Contractor’s request for any adjustments shall be deemed waived unless submitted in writing within such fifteen (15) days. Contractor shall not implement the change unless directed in writing by HJF to perform said change, and, if Contractor timely requests, HJF and Contractor shall mutually agree in writing upon an equitable adjustment in the price or delivery date to reflect the effect of such change. Contractor shall not suspend performance of the unaffected portion of the Contract while HJF and Contractor are in the process of making such changes and any related adjustments, or at any time thereafter, unless so instructed in writing by HJF.

E.6. Independent Contractor. The Contractor is an independent entity and nothing herein shall be construed to make the Contractor an agent, partner, legal representative, employee, or joint venturer of HJF. HJF and Contractor will at all times remain independent contractors, each engaged in its own separate business and each responsible for its own employees and costs of doing business.

E.7. Conflict of Interest. The Contractor represents that it is free to enter into this Contract and that this engagement shall not conflict with any obligations the Contractor owes to any third party nor does it violate the terms of any agreement between the Contractor and any third party.

E.8. Assignment. Neither this Contract nor any part thereof shall be assigned or transferred by Contractor without the express prior written consent of HJF, and any assignment or transfer without such consent shall be void and of no effect.

E.9. Laws and Regulations. Contractor agrees that, in performance of the Contract, Contractor will comply with all applicable laws, statutes, rules, regulations, ordinances, and orders of any state, country, or political subdivision thereof.

E.10. Timely Performance. Time is of the essence in this Contract. Contractor's timely performance is a critical element of this Contract. If Contractor becomes aware of difficulty in timely performing the Contract, Contractor shall promptly notify HJF, in writing, giving pertinent details. Such notification shall not change any delivery schedule.

E.11. Force Majeure. Neither HJF nor Contractor shall be liable to the other for any failure to perform the obligations hereunder if such failure is due to fires, floods, strikes, work stoppages, accidents, war, riots, insurrection, governmental actions, acts of terrorism, acts of God, or any other such cause that is beyond the control of the Party failing to perform.

E.12. Service Work. In the event the Contract requires the performance of service work or installation of goods by Contractor upon any property, premise, or project of HJF or its customer, Contractor shall examine the premises to determine whether they are safe for such services and shall advise HJF promptly of any situation it deems unsafe. Further, while on the premises of HJF or its customer, Contractor and its employees shall comply with all applicable safety and health laws, regulations, and ordinances and with HJF's or its customer's safety and facility rules. Contractor shall keep said premises and the vicinity thereof clean of debris caused by its work, and upon completion of work, shall leave the premises clean and ready for use. Upon request of HJF and at no expense to HJF, Contractor shall promptly remove from said premises any person under the control of Contractor who violates any of the aforesaid safety, health, or facility laws, regulations, ordinances, or rules, who may cause or threaten to cause a breach of the peace, or who is otherwise objectionable to HJF or its customer.

E.13. Insurance (Standard). Contractor shall maintain and, upon HJF's request, shall provide written proof of the following insurance coverages during the term of this Contract and through the end of any applicable warranty period specified in E.21: Worker's Compensation in amounts required by law; Employer's Liability Insurance with minimum limits of \$500,000 per occurrence; Comprehensive General Liability Insurance with a combined single limit of \$2,000,000 per occurrence for bodily injury and property damage, protecting Contractor against claims for bodily injury, including death, and property damage arising out of Contractor's operations; Automobile Liability Insurance with a combined single limit of \$1,000,000 per occurrence for bodily injury, contractual endorsement, products, hazards, environmental liability, and property damage covering use and operation of owned, non-owned, and hired vehicles. If Contractor subcontracts any of the work to a third party, Contractor shall require such third party to furnish the same insurance and indemnity as are required of Contractor hereunder.

E.14. Indemnification. Contractor agrees to indemnify, defend, and hold HJF, its officers, directors, employees, and agents harmless from and against any and all losses, liabilities, demands, suits, judgments, claims, and expenses (including personal injuries, property damage, and reasonable attorney's fees), to the extent that such losses, liabilities, demands, suits, judgments, claims, and expenses arise out of or result from the negligent or intentional acts or omissions of Contractor, or of its officers, directors, employees or agents, in performing its obligations under this Contract.

E.15. Limitation of Liability. **IN NO EVENT WILL HJF BE LIABLE FOR ANY SPECIAL, INDIRECT, CONSEQUENTIAL, OR INCIDENTAL DAMAGES ARISING OUT OF OR RELATING TO THIS CONTRACT, EVEN IF HJF HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.** In no event will HJF's liability hereunder for damages of any nature exceed the Contract Amount in A.8.

E.16. Packing and Shipment. All deliverables shall be packaged and marked as appropriate for the specific materials being delivered. Contractor agrees to ensure that shipments of deliverables are properly packaged and marked in accordance with standard commercial practice and applicable carrier regulations, unless otherwise specified in this Contract. On all shipments, a packing list shall accompany each container and shall describe the contents of that container and reference the appropriate Contract and item number. The bill of lading also will reference the Contract and item number. Contractor agrees to ship via carrier specified by HJF, if any. No charge shall be allowed for packing, marking, shipping, or handling unless otherwise stated in the Contract. Contractor shall bear any premium freight cost incurred beyond that agreed by HJF. Contractor is responsible for all shipments that are damaged in transit due to improper packaging, improper marking, improper judgment, or other act or omission of

the Contractor. Partial shipments, if authorized by HJF, shall not be construed as making the obligations of Contractor severable. All goods received in excess of Contract requirements shall be subject to return for credit at Contractor's expense.

E.17 Inspection and Acceptance. All goods and services shall be subject to inspection by HJF and the Government at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of this Contract. Inspections and tests are for the sole benefit of HJF and the Government and do not relieve the Contractor of responsibility for providing adequate quality control measures or relieve the Contractor of responsibility for damage to or loss of material or equipment prior to acceptance, or constitute or imply acceptance, or affect the continuing rights of HJF or the Government. Goods and services shall be deemed accepted only after they have been inspected and found by HJF to be in conformance with this Contract. The Contractor shall, without charge, replace or correct work found by HJF not to conform to Contract requirements.

E.18. Title. (Standard) Contractor warrants full and unrestricted title to HJF for the goods and services furnished by Contractor under the Contract, free and clear of any and all liens, restrictions, reservations, security interests, or encumbrances. Transfer of title shall occur upon acceptance of goods or services or 30 days after receipt of goods or services, whichever is earlier. If HJF makes installment payments to Contractor under the Contract, title to the goods ordered hereunder (including work in progress, components thereof, and materials therefor) shall pass to HJF at the time the first installment payment is made or as otherwise specified in the Contract. Contractor shall clearly identify such goods by visible marking or tagging, and HJF shall have the right, at HJF's option, to inspect and verify that said goods have been identified as HJF's property. Care, custody, and control of such goods remain with Contractor until such time as HJF takes physical possession.

E.19. Language and Standards. All reports, correspondence, drawings, notices, markings, and other communications shall be in the English language. The English version of this Contract shall prevail. Unless otherwise provided in writing, all documentation and work shall use the units of U.S. standard weights and measures.

E.20 Taxes and Duties. Unless otherwise specified, any prices include all applicable federal, state, and local taxes, as well as duties, tariffs, and similar fees imposed by any government, all of which shall be listed separately on the invoice. Prices shall not include any taxes or charges for which HJF has a valid exemption certificate.

E.21. Warranties. In addition to Contractor's standard warranty and any warranty specified in any other sections/attachments to this Contract, Contractor warrants that all goods and services furnished pursuant to this Contract shall strictly conform to applicable specifications, drawings, samples, designs, descriptions, and other requirements of this Contract and be free from defects in design, material, and workmanship. All warranties shall survive inspection and acceptance of, and payment for, the goods and services. All warranties shall run to HJF and its successors and assigns. The warranty shall extend for a period of one (1) year after HJF's final acceptance unless a different period is set forth elsewhere in this Contract. If any nonconformity of the goods or services appears within that time, Contractor shall promptly repair, replace, or re-perform, at HJF's option. Any such repair, replacement, or repeat performance shall be at Contractor's expense. Goods and services so required to be repaired, replaced, or repeated shall be subject to this provision and the Inspection and Acceptance provisions of this Contract in the same manner and to the same extent as the goods and services originally provided under this Contract. If repair, replacement, or re-performance is not timely, HJF may elect to repair or re-procure the nonconforming goods and services at Contractor's expense.

E.22. Mechanics' Liens. Contractor's obligations under the Contract shall include keeping the premises of HJF and HJF's customers free from all claims, liens, and encumbrances. Contractor, for itself and all of its subcontractors and suppliers, waives all rights of lien against the property and premises of HJF and HJF's customers for labor performed or for goods furnished.

E.23. Bonds or Other Security (*applicable to Contracts for construction or facility improvement*). The Contractor shall furnish performance and payment bonds for 100 percent of the Contract Amount within seven (7) days of the effective date of this Contract. The bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR Part 223, "Surety Companies Doing Business with the United States."

E.24. Confidentiality (Standard).

(a) "Confidential Information" shall mean (i) any HJF or U.S. Government information or materials provided to Contractor pursuant to this Contract; (ii) any information or materials conceived, originated, discovered, or developed, in whole or in part, by the Contractor pursuant to any work performed under this Contract; (iii) any data or test results and analysis thereof generated by Contractor pursuant to this Contract; and (iv) any report prepared by Contractor pursuant to this Contract. Confidential Information includes, but is not limited to, the following types of information and other information of a similar nature (whether or not reduced to writing): discoveries, ideas, concepts, software in various states of development, designs, drawings, specifications, techniques, models, data, source code, object code, documentation, diagrams, flow charts, research development processes, procedures, "know-how", marketing techniques and materials, marketing and development plans, customer names and other

information related to customers, price lists, pricing policies, trade secrets, and financial information. Confidential Information also includes any information described above that HJF obtains from another party and which HJF treats as proprietary or designates as Confidential Information, whether or not owned or developed by HJF. Notwithstanding the foregoing, Confidential Information shall not include information that (i) was known to the Contractor without a duty of confidentiality before receipt from HJF or the U.S. Government as evidenced by written records made prior to such receipt or disclosure; (ii) is published or becomes available to the general public other than through a breach of this Contract; (iii) is rightfully received by Contractor from a third party without a duty of confidentiality; or (iv) is publicly disclosed by Contractor with prior written permission from HJF.

(b) Nondisclosure. The Contractor hereby agrees that during the term of this Contract and for a period of ten (10) years thereafter, and except as specifically permitted herein or in a separate writing signed by an authorized official of HJF, the Contractor shall not use, commercialize, or disclose any Confidential Information to any person or entity. The Contractor further agrees to hold the terms of this Contract in confidence. Upon termination or at any time upon the request of HJF, the Contractor shall return to HJF all Confidential Information, including all notes, data, reference materials, sketches, drawings, memoranda, documents, and records that in any way incorporate Confidential Information.

(c) If the Contractor is requested or required (in legal proceedings, investigation by any governmental entity, or other similar process or by law or regulation) to disclose any Confidential Information, the Contractor shall, if permitted by applicable law, (i) promptly notify HJF in writing of the existence, terms, and circumstances surrounding such request or requirement and (ii) reasonably cooperate with HJF to seek or obtain a protective order or other remedy or to resist or narrow such request or requirement or to otherwise assure that such Confidential Information is withheld from the public record and public availability. If, in the absence of such protective order or similar remedy and notwithstanding the provisions of this Contract, Contractor is, in the opinion of its legal counsel, legally compelled to make disclosure of such Confidential Information at the time such disclosure is proposed to be made or else be liable for contempt or suffer other material legal penalty, Contractor shall disclose only that portion of such Confidential Information that, in the opinion of such counsel, is legally required to be disclosed at that time in order to avoid liability for contempt or other material legal penalty, provided that Contractor exercises its best efforts to preserve the confidentiality of such Confidential Information, including by cooperating as reasonably requested by HJF.

E.25. Information Disclosed to HJF. With respect to any information, knowledge, or data disclosed to HJF by the Contractor, the Contractor represents that it has the full and unrestricted right to disclose the same without incurring legal liability to others, and that HJF shall have the full and unrestricted right to use and publish the same as HJF may see fit.

E.26. Patent Indemnity. Contractor, at its sole expense, shall indemnify, hold harmless, and defend HJF, its officers, agents, employees, successors, and customers (mediate and immediate) from and against any suit or proceeding brought against HJF based on a claim, actual or alleged, that the purchase, manufacture, use, or sale of any goods or services or any part thereof supplied under the Contract, constitutes infringement of any patent, copyright, trademark, or proprietary information right of others, and Contractor shall pay all loss, expense, liability, damages, and costs awarded therein against HJF at law or in equity. Contractor shall be promptly notified, in writing, of the suit or proceeding and shall be given adequate authority, information, and assistance, at Contractor's expense, for the defense of same, subject to the right of HJF to participate at its expense and to be fully advised by Contractor in advance of all actions taken. In case said goods or any part thereof are, in such suit, held to constitute infringement or the sale or use of said goods or parts thereof are enjoined, regardless of whether such determination constitutes a final judgment, Contractor shall, at its expense, either procure for HJF the right to sell and use said goods or part thereof, or replace the same with substantially equivalent but non-infringing goods.

E.27. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

The Contractor shall promptly and fully report to HJF's Administrative Contact (identified in A.3), in writing, all data, results, conclusions, discoveries, inventions, improvements, know-how and the like, whether patentable or not, conceived, made, or first reduced to practice by the Contractor during the term of this Contract (whether made solely by the Contractor or jointly with others) that result from or are suggested by any work the Contractor may do pursuant to this Contract (hereinafter "Inventions"). The Contractor agrees that all Inventions are and shall be the sole property of HJF, and Contractor agrees to, and does hereby, assign to HJF or HJF's nominee its entire right, title, and interest in and to any and all Inventions. The Contractor shall assist HJF, at HJF's expense, in the preparation of all documentation necessary to effectuate and perfect HJF's rights in Inventions.

E.28. Copyright.

(a) The Contractor agrees that each and every work of authorship authored and to be authored pursuant to or in furtherance of this Contract (hereinafter in this clause the "Work") is and shall be a "work made for hire" as defined in 17 U.S.C. § 101, and, pursuant to 17 U.S.C. § 201(b), HJF is the author thereof and the owner of all rights comprised in the copyright.

(b) If for any reason the Work would not be considered a work made for hire under applicable law, the Contractor hereby transfers and assigns to HJF all right, title, and interest in and to any and all copyrights in and to the Work (and any registrations and copyright applications relating thereto and any renewals and extensions thereof).

Contractor:
Purchase Order No.:
Contract No.

Without limiting the foregoing, the Contractor specifically transfers and assigns to HJF the rights to create derivative works based on the Work and to receive any and all profit, benefit, and advantage that shall or may arise by or from printing, copying, publishing, or vending all or any portion of the Work and any derivative works based thereon, together with any and all income, royalties, damages, claims, and payments now or hereafter due or payable with respect thereto and any and all causes of action, either in law or in equity, for past, present, or future infringement of the copyrights, and all rights corresponding to the foregoing throughout the world, to have and to hold the same to HJF and its successors and assigns forever.

(c) The Contractor warrants and represents that the Contractor is the sole author (within the meaning of U.S. copyright law) of the Work; that the Work is not in the public domain; that the Work is original (except for any material from previously copyrighted works obtained by permission or assignment); that the Work does not infringe any existing copyright; that the Work has not heretofore been published in any form; and that the Contractor has full power to transfer any copyright interest that the Contractor may have in Work to HJF. HJF shall have the right to extend these warranties to any third parties, and the Contractor shall be liable to the same extent as if the Contractor made such warranties originally to such third party.

(d) The Contractor will defend, indemnify, and hold harmless HJF and its licensees against all claims, suits, costs, damages, and expenses that HJF or its licensees may sustain by reason of any scandalous, libelous, or unlawful matter contained or alleged to be contained in the Work or by reason of any infringement or violation by the Work of any copyright or other property right; and until such claim or suit has been settled or withdrawn, HJF may withhold any sums due the Contractor under this Contract.

(e) With the exception of short, properly attributed excerpts from others' works that constitute fair use, the Work contains no material from other copyrighted works without the written consent of the copyright holder(s). The Contractor will obtain such consents at its own expense after consultation with HJF and will file them with HJF at the time the Work is delivered. Any obligations associated with such consents will be the sole responsibility of the Contractor.

(f) The Contractor agrees to execute all papers and to perform such other proper acts as HJF may deem necessary to secure for HJF or its designee the rights herein assigned.

(g) The U.S. Federal Government, including the sponsor of the Prime Award, reserves a royalty-free, non-exclusive, irrevocable right to reproduce, publish, or otherwise use the Work for U.S. Federal purposes, and to authorize others to do so.

E.30. Termination for Convenience. HJF reserves the right to terminate this Contract, in whole or in part, for its convenience upon thirty (30) days written notice. On the date of termination stated in the notice, Contractor shall discontinue all work pertaining to the Contract, shall place no additional orders, and, pending HJF's instructions, shall preserve and protect materials on hand purchased for or committed to the Contract, work in progress, and completed work both in Contractor's and in its suppliers' facilities, and shall dispose of same in accordance with HJF's instructions. HJF and Contractor shall mutually agree on appropriate cancellation payment to Contractor or refund to Contractor, if any, taking into consideration that portion of the work satisfactorily performed to the date of cancellation, including reimbursement for reasonable overhead and profit on such work, reasonable and necessary expenses resulting from the termination, as substantiated by documentation reasonably satisfactory to and verified by Contractor, and amounts previously paid by Contractor.

E.31. Termination for Default. If Contractor at any time shall default on or fail to perform any of its material obligations under the Contract, be adjudged bankrupt, or make a general assignment for the benefit of its creditors, or if a receiver shall be appointed on account of Contractor's insolvency, HJF may, by written notice to Contractor, without prejudice to any other rights or remedies that HJF may have, terminate further performance by Contractor under the Contract. In the event of such termination, HJF may complete the performance of the Contract by commercially reasonable means, and Contractor shall be responsible for the additional costs incurred by HJF in so doing. Any amounts due Contractor for work completed by Contractor prior to such termination shall be subject to offset HJF's additional costs of completing the Contract and other damages incurred by HJF as a result of Contractor's default.

E.32. Dispute Resolution. In the event of any controversy or claim arising out of or relating to any provision of this Contract or the breach thereof, the Parties shall follow the following Dispute resolution process to resolve any Dispute as expeditiously as possible. A party shall give written notice to the other party of the Dispute and request initiation of the Dispute resolution process. The parties shall meet (virtually or in person) within ten (10) business days to try to resolve the Dispute. If the parties are unable to resolve the Dispute at the meeting, each party will prepare and provide to the other party a written position statement summarizing unresolved issues and such party's proposed resolution within twenty (20) business days after the meeting. These position statements will be delivered to the designated senior executive officers of each party, who then will attempt to resolve the Dispute. If after thirty (30) business days the parties continue to be unable to resolve the Dispute, either party may commence an action in a court of competent jurisdiction as provided in (b) below.

a) For any Dispute that cannot be resolved through the Dispute resolution process set forth in (a) above, either party may commence an action in the Maryland state courts in Montgomery County, Maryland, U.S.A., or, if

Contractor:

jurisdiction is proper in U.S. Federal court, in the appropriate U.S. Federal District Court for the District of Maryland, and both parties hereby consent to personal jurisdiction in such state and federal courts in Maryland, U.S.A.

b) Notwithstanding the Dispute resolution process in (a) above, this provision shall not be construed to limit a party's right to seek preliminary or permanent injunctive relief in a court of competent jurisdiction as provided in (b) above.

c) The Contractor shall proceed diligently with the performance of the Purchase Order pending final resolution of any Dispute.

E.33. Governing Law. This Contract shall be governed by and construed in accordance with the laws of the State of Maryland, without regard to principles of conflict or choice of laws, but giving due regard to U.S. Federal laws and regulations governing the interpretation of U.S. Federal grants, cooperative agreements, and contracts.

E.34. Right to Setoff. HJF, without waiver or limitation of any rights or remedies of HJF, shall be entitled at any time to set-off any amounts due or owing to HJF from the Contractor against any amount payable by HJF, whether or not in connection with this Contract.

E.35. Hazardous Materials. Contractor shall notify HJF in writing upon receipt of the Contract if any goods or services furnished are subject to laws or regulations relating to hazardous or toxic substances, or to any other environmental or safety and health regulations, or, in the case of goods when disposed of, to regulations governing hazardous wastes. Contractor shall furnish all appropriate shipping certification and instructions for shipping, safety, handling, exposure, and disposal in a form sufficiently clear for use by HJF's non-technical personnel and sufficiently specific to identify all action that the user must take concerning the material.

E.36. Export Control. Contractor understands and acknowledges that HJF is subject to various national security and export control laws and regulations that prohibit or restrict the export or diversion of certain controlled information and materials. In the performance of this Contract, the Contractor agrees that it will comply with all applicable U.S. laws (including, but not limited to, the International Traffic in Arms Regulations and the Export Administration Regulations), Executive Orders, and Federal agency regulations and policies concerning the use, handling, and dissemination of controlled information and materials. Nothing in this Contract shall be construed to permit any dissemination of controlled information or materials in violation thereof.

E.37. Compliance with Foreign Corrupt Practices Act and Other Laws. It is HJF's policy to conduct its business in strict compliance with all laws, rules, and regulations applicable to such business in all countries in which it operates and to require all of HJF's contractors and subcontractors to avoid any activities that would involve or potentially involve HJF in any unlawful practice. The Contractor agrees to comply with this policy. The Contractor understands and acknowledges that HJF is subject to the U.S. Foreign Corrupt Practices Act ("FCPA"), which is codified at 15 U.S.C. §§ 78dd-1, *et seq.* The Contractor hereby represents, warrants, and covenants to HJF that it understands HJF's obligations under the FCPA and that neither it nor any of its employees, representatives, agents, or advisors have made nor will make, directly or indirectly, any solicitation, request, offer, payment, promise to pay, or authorization of any of the foregoing that is in violation of the FCPA. The Contractor likewise understands and acknowledges that it is HJF's policy to comply with the provisions of the U.K. Bribery Act. The Contractor hereby represents, warrants, and covenants to HJF that neither it nor any of its employees, representatives, agents, or advisors have made nor will make, directly or indirectly, any solicitation, request, offer, payment, promise to pay, or authorization of any of the foregoing that is in violation of the U.K. Bribery Act.

E.38. No Waiver. Except as otherwise expressly provided, no failure or delay of either Party in exercising any power, right, or remedy will operate as a waiver thereof, nor will any single or partial exercise of any power, right, or remedy preclude any other or further exercise thereof or the exercise of any other power, right, or remedy.

E.39. Security. If HJF makes any advance or progress payment to Contractor under the Contract, Contractor agrees, upon HJF's request, to execute a security agreement and financing statement (both in form satisfactory to HJF) granting a security interest to HJF, effective in all states of fabrication or manufacture, in the proceeds, raw materials, and goods that are purchased, manufactured, or otherwise obtained pursuant to the Contract.

E.40. Record Retention and Audit. All records related to this Contract, at any time in the possession or control of Contractor, shall be retained for a period of six (6) years and four (4) months after the conclusion of the Prime Award. Without limiting the foregoing, if any litigation, claim, or audit is started before the expiration of the six-year-and-four-month period, the original records shall be retained until all litigation, claims or audit findings involving the records are resolved. HJF, the Department of Defense, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any pertinent books, documents, papers, and records of the Contractor as are necessary to verify Contractor's performance and all expenses and charges submitted pursuant to the terms of this Contract. Contractor shall make such books and records available for inspection during normal business hours at Contractor's place of business. If this Contract has elements that are not firm-fixed-price and a final audit has not been performed prior to the closeout of the Contract, HJF will retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

E.41. Release of Information and Use of Name. Contractor shall not release or have released any publication, publicity, press release, or advertising, regardless of media, relating to this Contract or use the name of HJF or the Awarding Agency in any publication, publicity, press release, or advertising without the express written approval of HJF. No reference to HJF shall be made in any advertising or publicity matter without HJF prior written approval.

E.42. Information Technology Compliance. Contractor shall implement and maintain an adequate level of security to protect the confidentiality, integrity, and availability of HJF Confidential as defined in E.24 Confidentiality or other information of any nature whatsoever provided by, or related to, HJF or HJF's customers or other data subjects that is protected by applicable state, federal, or foreign data security and privacy laws and regulations (collectively, "HJF Protected Information"). J. This includes implementing appropriate administrative, technical, and physical safeguards to prevent unauthorized access, loss, disclosure, or misuse of HJF Protected Information.

Contractor shall remain responsible for ensuring compliance with applicable security and data protection obligations. Contractor is responsible for ensuring that its employees, subcontractors, and any third parties with access to HJF Protected Information comply with these security obligations.

In the event of an actual or reasonably suspected security incident or data breach that may impact shared data, Contractor shall notify HJF promptly (and in any event within any notice period as required by applicable laws or regulations) and take necessary steps to contain, remediate and report the incident. Contractor shall cooperate in any investigation or response efforts as reasonably requested by HJF.

E.43. Severability. Whenever possible, each provision of this Contract will be interpreted in such a manner as to be legal, valid, and enforceable under applicable law, but if any provision of this Contract shall be held by a court having jurisdiction to be illegal, invalid, or unenforceable, the remaining provisions of this Contract will remain in full force and effect as if it had never contained such illegal, invalid, or unenforceable provision. If necessary to effect the intent of the Parties, the Parties will negotiate in good faith to amend this Contract to replace the illegal, invalid, or unenforceable language with legal, valid, and enforceable language that as closely as possible reflects such intent.

E.44. Order of Precedence. If an otherwise irreconcilable conflict arises between any provisions of this Contract, the following order of precedence shall prevail:

- (1) the Contract excluding Attachments
- (2) Attachments A and B
- (3) Attachment C, and other documents incorporated by reference (if any).

E.45. Electronic Signatures/Counterparts. The parties acknowledge and agree that Contract may be executed in counterparts, using electronic or facsimile signatures, and that such a signature shall be legally binding to the same extent as a written signature by a party's authorized representative. Each counterpart shall be deemed an original, and all of which together shall constitute one and the same instrument. Each party waives any legal requirement that this Contract be embodied, stored or reproduced in tangible media, and agrees that an electronic reproduction shall be given the same legal force and effect as a signed writing.

E.46. Ethics Policy. If the Contractor does not have a written Business Code of Ethics, they are expected to conduct themselves in a manner consistent with the principles expressed in the [HJF Third Party Code of Ethics](#).

E.47. Conflicts.
